

MARCH EMBROIDERY CLUB ADVENTURE

IN THE HOOP WALLET
Friday, March 23RD, 2018
1:00-4:00 PM

Make a complete wallet in two hoopings!

SUPPLIES NEEDED:

-Order design from swpea.com. All machine extensions and directions will be included when you download. My sample is called the Hexagon wallet. Be sure you have a hoop to accommodate your wallet.

-Hoop to accommodate your design. My sample was the 6x10 size, completed in a 200x280 hoop. For those of you with a smaller hoop, I would suggest the 5x7 size design.

-Designs on your USB or design medium for your machine. To complete the Hexagon wallet, will require two designs, a front and an inside. No matter what wallet you choose, be sure to print All instructions, or bring a laptop with you so you can follow them carefully. HINT: when you save to your flash drive, be sure you don't combine any colors. It will affect your final product.

-Embroidery thread for your design. 60 weight bobbin thread will be fine. (Don't forget all the great colors available at the store, and buying 30 gets you a free storage box!).

-Your choice of fabric. The instructions will tell you exactly what you will need.

-Quilt batting, per the instructions

-Tear Away stabilizer and masking tape

-Remember all your standard supplies like your power cord, scissors, pins, marking pen, sewing thread, needle for hand sewing and standard sewing foot.

I look forward to seeing all of you in March. Remember your Show & Tell! I love seeing all your wonderful creations.
